

Compact

# Stand/Perch Stairlift

The alternative solution to seated stairlifts

# The Unique Safety Barrier Arm

**Opened at 180 degrees for easy access**

As a premier manufacturer of stairlifts, Bison believes that everyone should have the opportunity to fully enjoy an active life in the comfort of their own home. Stairs should not be an obstacle to this enjoyment and neither should the type of stairlift chosen to meet these needs. For this reason Bison Stairlifts have introduced the Compact Stand/Perch. Specifically designed to meet the needs of users who have difficulty in sitting or simply those who feel more comfortable standing while using a stairlift.

The Perch Seat can be supplied with one of 6 unique seat heights ranging from 600 to 850mm in 50mm increments. Together with the safety barrier arm and easy to operate safety belt you can be assured of a comfortable and safe journey up and down the stairs.

With a choice of 6 quality fabric colours and 3 rail finishes this will ensure the Compact Stand and Perch blends perfectly into your home.

**Folded for convenience**

In order to meet all your needs the Compact Stand and Perch has a host of unique features and options.

- Option for Heavy Duty up to 150kg (24 stone)
- Can be used over a hinge
- Larger footrest fully compliant with BS5776 1996
- Safety integrated Barrier Arm

**“Ready for Use” position**
